<b>Description and Purpose:</b>	
<p>The style of the Product date codes actually being marked on the IC T092 Products does not match what is stated in the Product Data sheets.</p> <p>The product data sheets will be corrected to reflect the actual style being used.</p> <p>Example of a current data sheet date code:</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p>MC78L zzABP ALYWW</p> <p>1 2 3</p> </div> <div style="text-align: center;"> <p>MC78L zzACP ALYWW</p> <p>1 2 3</p> </div> </div> <p>                     zz = 05, 08, 09, 12, 15, 18 or 24                      A = Assembly Location                      L = Wafer Lot                      Y = Year                      WW = Work Week                 </p>	
<p><b>ALYWW</b> style of code has never been used on these products due to insufficient space on the package.</p> <p><b>ALYW</b> style has actually been in use for many years.</p>
